very very good ol game - stands up well in this day and age
classic of video game

. what a great game. feels almost....like space 1889 which i very much miss playing and a mix between an old school classic. save often! like its predecessors its an unforgiving game! Im sure to play it till i pull my hair out!. Gotta keep our Gnome society safe from the ills of humanity, and wasteful alms giving to the poor.

. Really good RPG. You get to go Magic man, or build into tech, theres like 12 different schools of magic with 5 spells in each school, a bunch of\u2665\u2665\u2665\u2665\u2665\u2665you can craft. I'd really recommend giving it a go, its pretty cheap especially on sale.

Only issue is some slowdown but it can be fixed with some .ini edits, there is also a pretty good mod called Arcenum Multiverse that makes the game run and look better
